

NC Best Tire Safety Competition

Thursday, June 18th, 1:00 pm

Hickory 1 Classroom

Description of Event:

The competition is designed to stress the importance of performing a thorough tire inspection of each of the rolling wheel position on the school bus. It is a timed event.

This exercise gives the individual an opportunity to properly inspect the tire and wheel assembly. The competitor will be required to identify and document any potential items that may compromise the safety and performance of the tire.

The primary goal is safety first! The contestant will be asked identify and document items that could lead to any potential downtime and overall performance of the tire.

This competition is designed to be educational, interesting, while stressing the importance of safety for our children. Of course, we would like everyone to enjoy and have fun before and after the event. The top three highest scoring contestants will be recognized.

Registration for this event is included in the on-line registration form. Participants must be registered Transposium attendees. If you have already registered on-line but would now like to participate, please contact Cynthia Phillips at cpp290@gmail.com or call her at 910.308.9652 and she can update your registration.

See you in Hickory and Good Luck!
