## Issues Affecting Term Contract for Ultra Low Sulfur Diesel (ULSD)

July 11, 2008

The North Carolina Pupil Transportation Association in partnership with the Transportation Services Division of DPI agrees that the following information should be considered when formulating the state contract for purchasing ULSD and other types of fuel:

- Ensure that fuel prices are published so that agencies ordering fuel will know at the time the order is placed the price per gallon that will be paid.
- Provide a stable price structure that guarantees price for a period of time (Prior to April, 2006, diesel contract prices went into effect on Tuesday of each week and stayed constant for 7 days.).

On behalf of the Advisory Council please accept these concerns and offer resolution for the local education agencies in awarding the next ULSD fuel contract.
